

# Myb Antibodies Tested

Company	Antibody Name	Immunogen	Western Blot?	ChIP-Seq?
Abnova	Anti-Myb pAB	Full-length human protein	No	NA
Epitomics	c-Myb polyclonal antibody	Synthetic Peptide corresponding to residues near the N-term	Yes	No
Millipore	Clone 1-1	C-terminal amino acids from 401-636	Yes	No
Santa Cruz	C-myb (H-141) sc-7874	Raised against aa 500-640 of c-myb	Yes	No
Santa Cruz	C-myb (D-7) sc-74512	Aa 500-640	Yes	No
Santa Cruz	C-myb (C-19) sc-517	Raised against a peptide mapping at the last 50 amino acids (C-term)	Yes	Yes, does not recognize fusion protein in ACC cell lines
Abcam	Ab10937 C-myb and v-myb	Mouse monoclonal [IOA3] to v-Myb + c-Myb. Recombinant full length v-myb.	Yes	No
Acris	SM1574P Myb antibody	Recombinant v-myb protein. Recognizes both v-myb and c-myb	Yes	No
Abgent	C-myb antibody AJ1192a	Synthetic peptide corresponding to residues near N-term of human c-myb	Yes	No
Novus	C-myb antibody EP769Y	A synthetic peptide corresponding to residues near the N-terminus of human c-myb was used as an immunogen.	Yes	No

# Myb Antibodies Commercially Available as of Fall 2012

Antibody	Company	Antibody Name	Immunogen	Notes
1	Abcam	Anti v-myb and c-myb antibody (IOAS3) ab10937	Mouse monoclonal recognizes both v-myb and c-myb. Immunogen is full length v-myb protein	Tested
1	AbD serotec	V-myb/c-myb antibody MCA1793	Mouse monoclonal, recognizes both v-myb and c-myb.	
1	Acris Antibodies	SM1574P Myb antibody	Mouse monoclonal IOAS3. Immunogen is recombinant v-myb protein	
1	LSBio LifeSpan BioSciences, Inc	Anti-MYB/ c-Myb Antibody LC-C9145	Mouse monoclonal, recognizes both v-myb and c-myb. Immunogen → recombinant v-myb protein	
2	Abcam	Anti v-myb and c-myb antibody (EP769Y) ab45150	Rabbit monoclonal. Immunogen is synthetic peptide corresponding to residues near the N-terminus of human c-Myb	Tested
2	Abgent	C-myb antibody AJ1192a	Rabbit Monocolonal → Immunogen is a synthetic peptide corresponding to residues near the N-terminus of human c-myb	
2	Epitomics	C-myb Cat # 1792-1	Rabbit monoclonal antibody. Immunogen is a synthetic peptide corresponding to residues near the N-terminus of human c-Myb	
2	LSBio LifeSpan BioSciences, Inc	Anti-myb/ c-myb antibody LS-C49755	Rabbit monoclonal (EP769Y). Raised against a synthetic peptide corresponding to residues near the N-term of human c-myb	
2	Novus Biologicals	C-myb antibody (EP769Y) NB110-57171	Rabbit monoclonal antibody. Raised against a synthetic peptide corresponding to residues near the N-terminus of human c-myb	
3	Acris Antibodies	SM1573 Myb antibody	Mouse anti human 4E3. Immunogen is recombinant v-myb protein.	Tested
3	Genetex	V-myb and c-myb antibody 4E3 (GTX10935)	Mouse monoclonal recognizes both v-myb and c-myb	
4	Abnova	Anti-myb pAB	Rabbit polyclonal antibody (DO1). Immunogen is full length human myb protein	Tested
5	Antibodies-online	c-Myb Antibody	Rabbit polyclonal, Immunogen → Synthetic peptide derived from human c-Myb	testing in process
6	Cosmo Bio Co LTD	CAC_MKM_M03 c-myb antibody	Mouse Clone 1-1-1	testing in process
7	LSBio LifeSpan BioSciences, Inc	Anti-myb/c-myb antibody LS-C72937	Mouse monoclonal, raised against recombinant full length v-myb protein. Recognizes both v-myb and c-myb.	testing in process
8	LSBio LifeSpan BioSciences, Inc	Anti-myb/ c-myb antibody LS_C30440	Rabbit polyclonal. Raised against synthetic peptide from N-terminus of human MYB.	testing in process
9	Millipore	Anti-myb clone 1-1	Mouse monoclonal antibody. Immunogen is recombinant murine myb purified by SDS-PAGE	Tested
10	Santa Cruz	C-Myb (H-141) sc-7874	Rabbit polyclonal antibody raised against amino acids 500-640 of c-myb of human origin	Tested
11	Santa Cruz	C-myb (D-7) sc-74512	Mouse monoclonal antibody raised against amino acids 500-640 of c-myb of human origin	Tested
12	Santa Cruz	C-myb (C-19) sc-517	Affinity purified rabbit polyclonal antibody raised against a peptide mapping at the C-terminus of c-myb of human origin.	Tested
